I've been seeking - Quiet time, to make the time, To find my mind.
I've been seeking - A pen that works, ideas that flirt, And nothing
hurts...

Oh I've been hoping for - a day to day, there's no need to stay, I'll be
fine right here,
I've been hoping for - so much, just, so much, just let me bend your
ear.

**It's all right here, just close your eyes and see,
I don't know the gravity, That keeps you holding on to me,
I'll spin around this earth, I'll hold on to all the dirt,
I'll find my way through, and make it back to you.**

Oh..

Oh I've been hoping for - some company, some common unity,
some quiet peace,
I've been hoping for- a view from space, a gentle place, to comfort
me.
I've been seeking – nothing new, walk down my street with you, sing
a tune or few.
Oh Ive been knowing- I'm holding on, I'm keeping on, im spinning
through.
